The Gas Tax Question

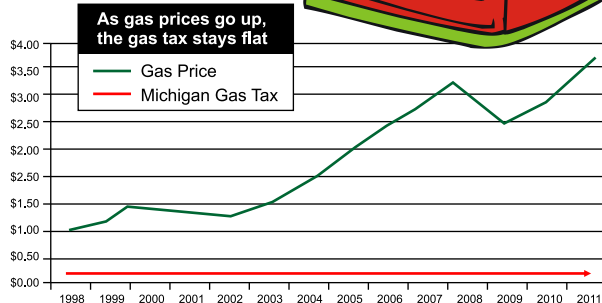

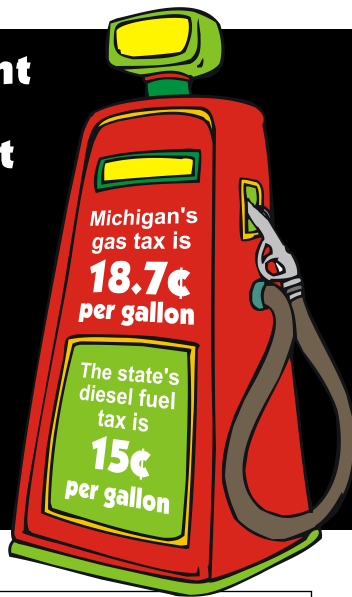

MDOT is responsible for more than 9,600 miles of state highways (I, M and US routes) and more than 4,600 highway, railroad and pedestrian bridges. In 2011, there were 49 billion vehicle miles traveled on MDOT roads. The state trunkline system carries 51% of all statewide traffic, and 64% of all commercial traffic.

"I just bought a more fuel-efficient vehicle.

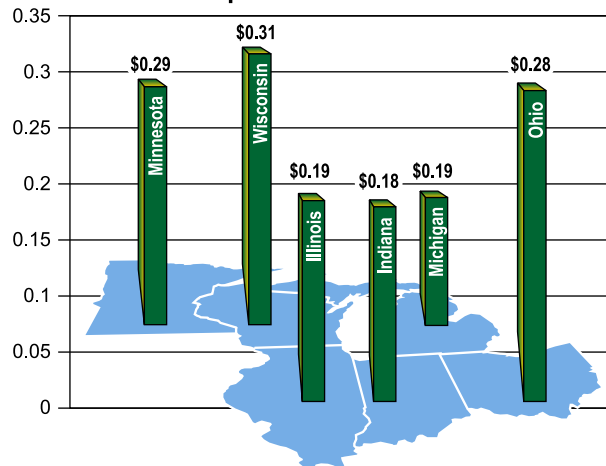

How much do I pay in Michigan fuel taxes?"

It doesn't matter if you pay \$1 or \$5 a gallon for fuel - the tax per gallon stays the same.

How does Michigan's gas tax rate compare?

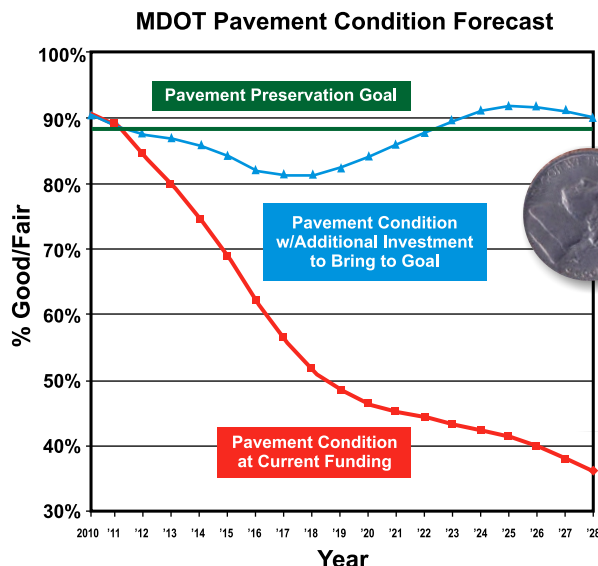

Comparison of Gas Taxes

Michigan's state gas tax is one of the lowest in the Great Lakes region.

How much do state roads need?

In order to maintain the MDOT highway system in "good/fair" condition MDOT needs an additional:

*Based on RSL (remaining service life) rating system

35¢ per day

from every vehicle registered in the state

"I have a 1999 Dodge Durango. How much do I pay in state fuel taxes?"

A Dodge Durango with a combined fuel efficiency of 14 mpg generates \$16.70 per month in state fuel taxes.*

"I drive a 2012 Ford Focus. What do I pay in state fuel taxes?"

A Ford Focus with a combined fuel efficiency of 31 mpg generates \$7.54 per month in state fuel taxes.*

*These averages are based on combined highway/city mpg rates from www.fueleconomy.gov. They are based on 1,250 vehicle-miles driven per month.
